Comments	<input type="text" value="I suspect Bourne Parking haven't visited the site prior to this application. At least one of the proposed new locations for a 6m street light is currently occupied by a native Oak tree which makes up part of the conservation area and protected woodland. I object to this application on the basis that protected oak trees would need to be harmed/removed. This plan needs revision. Someone should visit the site to ensure lights of an appropriate height are applied for, that do not require the damage to our protected woodland."/>
