Comments	<input type="text" value="The proposed flats are too high and will negatively impact on 90 to 94 Gresley Close. The flats will restrict light and will over shadow the properties as well as causing loss of privacy by the high level flats being able to see into the houses garden and back windows. The limited parking will cause problems in Gresley Close also as the people living in the as seek somewhere to park. There is a concern that the walk way to town will be closed during the building of the flats meaning a very long walk round to the main road and into town from Gresley Close."/>
