Comments	<input type="text" value="I am objecting to these plans for a number of reasons. This area falls within the conservation area of WGC and as such should not contain high density dwellings but conform to the red brick, neo-Georgian windowed houses of the original design. It's dominant position in the town centre means it should only be 2-3 storey houses/flats to enhance the visual ambiance of the town centre. Each should have its own garden and in view of more modern travel, at least 2 parking spaces. There is nothing in this design which meets any of the Garden City design principles."/>
