Comments	<input type="text" value="Insufficient parking allocated for proposed number of homes. Reduction in parking spaces in the city centre already due to close of the largest car park. Having less than one space available to each new home will exacerbate the parking issues. It is very short sighted to assume residents will be commuters using the train daily. Most office staff work from home and will require their own transportation . The town centre the already has little to encourage shoppers to the town, inability to park vehicle locally will either discourage shoppers and visitors . Those that do will be forced to find parking in the wider reaching residential streets and inevitably onto green spaces and verges."/>
