Comments	<input type="text" value="I object to the construction of yet more flats in WGC centre. I would support the building of houses on the site which would then compliment the 100s of flats being built in the town centre and provide young families with the accommodation they desire and need. Young families should not have to live in flats. The number of flats being built in the town is excessive and does not meet the needs of the town. Reject the proposal and build houses not flats. Further there is insufficient parking for cars, no additional provision for services, schooling, healthcare, leisure for the number of people expected to live in those flats. The plans are likely to leave a legacy of overcrowding, undesirable housing stock and lack of facilities for generations to come."/>
