Comments	<input type="text" value="There is a huge shortage of houses in the area, we don't need more high density high rise flats. I completely support more housing in WGC, especially redeveloping disused land, but this is just profiteering and doesn't fit with the family ethos of the down. We need family sized houses, with gardens, of which there is a huge shortage. I know far too many people who are bringing up young families in cramped flats, with no outdoor space, this is unacceptable. This problem could be solved if you build more houses. This is making the problem so much worse, as the demands for the remaining houses will go through the roof, as they will be at an even higher premium."/>
