Comments	<input type="text" value="Fully support development on a brownfield site such as this near town centre and services rather than on a greenfield site. Good to see existing cycle and walk route from Gresley Close maintained through site. Needs to be as direct as possible and tie in with provision outside the Red line boundary. Development should be car lite with car club provision and there needs to be sufficient consideration of the need for additional school places in the surrounding area as more and more families are living in flats."/>
