Comments	<input type="text" value="- I object to the height of the buildings, especially the ones backing onto gresley close. These should be no more than 3 storeys to ensure that gresley close houses still have some natural light, and the flats should not be visible from Gresley close so as not to ruin the neighbourhood and frontage of the street. There are also stricter fire regulations for houses of more than 5 storeys which need to be considered for resident safety. - Ensure the walkway to town is kept open during works - it would have been nice to see houses built instead of flats - will the parking be permitted and controlled?"/>
