MR N. KASMANI . n.KASMANI@WELLHAT.GOV.UK

LETTER - MS JESSICA MOORE  
PLANNING SUPPORT

(BY HAND)

Dear Planning Dept,

I do hope someone with authority and ability will stand up against this planned debacle. It is quite against Ebenezer Howard's original scheme for Welwyn Garden City (he must be turning in his grave). He envisaged houses with gardens and nearby open spaces. Now the whole ethos of his original plans would now be eroded. To have an additional 313 is cramming a quart into a pint pot. — this proposal would be an absolute saturation of flats in this area — so much for a Garden City (AND its prestige).

Talking about 313 — where do you envisage the CARS parking? and all the associated traffic? AND the infrastructure? It would be quite incapable of coping. Our health particularly here in Peel Court would suffer — think about your relations breathing and trying to move around safely & healthy etc. ONE DAY YOU WILL BE OLD — how would you want to live nearby to the proposal — your protection of green spaces and fresh air has gone obviously.

Pilots tell me there is plenty of green open land to absorb such developments. This scheme doesn't really have any good points. — for any human.

[redacted] and would like to ~~see~~ leave this world a better — not worse place

Thank you for reading this letter I would like a reply — and the names of councillors who voted to agree to this proposal <sup>only if possible</sup> — I understand probably not.

Yours faithfully  
[redacted]
