Comments	<input type="text" value="As a resident of 20 + years [REDACTED] I can't really find anything to recommend this application. There are no places allocated for council housing. Space for children to play and will block light to existing residents. The works themselves will put extra stress on my own family living in overcrowded accommodation by limiting our garden use. The look is more in fitting with business park and the Howard centre than any existing residential buildings in the area. It's poorly thought out and may restrict access to the town centre for everyone that uses Gresley Close for cycling, the shire business park and residents like myself who don't drive. There is not enough parking allocated and also I have to object to adding this many residential places without having the infrastructure to support it. Buses transport are all extremely poor service already. Not to mention schools and hospitals."/>
