My wife, who was born in WGC, & I, who both now live in Gresley Close WGC, are **Very** concerned at this development.

It has NO social housing & NO houses. This is a complete disregard for the current residents' views or the fact this is in a conservation area.

Additionally, you have given No consideration to the following:

1. Where are the new dentist facilities as it's almost impossible for current residents to get an NHS dental appointment?
2. The closure of ward facilities at the QE2 hospital has meant long delays both at A&E at the QE2 & at the Lister hospital as demand from the

**Current** population is so high.

3. There are **No** new schools for any more children from the Bellway development.
4. The developments on Broadwater Road are already adding to the population overload & demand for services.
5. GP surgeries are already overwhelmed at the current level of population & you are allowing 1000's more residents to add to the pressures with your large-scale high-rise building plans.

It would appear to be that you no longer care about the character of our **Garden** City, which has already been seriously eroded with the many recent building projects.

It would appear to be a fact that the Council is more interested in adding more people & more council tax payers to their books than taking care of both their current residents & the Garden City that Ebenezer Howard had the vision to create.

Yours sincerely
