7 July 2015

Dear Sir Ref: S6/2015/1342/PP

I have seen your letter of 29 June sent to the majority of residents at Greenfields - though not to Nos 29A & 29B. - the latter of which is most affected by this proposal which I think should be rejected because:-

- 1) Green Belt ~~with~~ site - Government says brown field sites to be used first.
- 2) Village infrastructure not sufficient to cope with extra traffic & people (Dr's surgery, school etc.)
- 3) Increased, pedestrians/cycling traffic through Greenfields which hinders the elderly, disabled & sick.
- 4) Developer used old photos on which to draw plan which did not show all buildings on Greenfields.
- 5) Residents on proposed site would be even closer to digestor & smell - which last week was nauseating.
- 6) Using valuable farmland much needed for home grown food.

Please keep all Greenfield residents informed of developments as this could be a distressing for some having such a large noisy ~~develop~~ building site on their doorstep.

Yours faithfully
