Comments	<input type="text" value="Agricultural land must be kept for the production of food and to stop air miles importing food that can be grown in this country. Once it is gone it is gone forever. At this moment in time - July 2021 we cannot forecast how much less office and city centre space will be needed now that working from home has become commonplace. These buildings and spaces can be used for rehousing and leave farm land for its original use and purpose - not redevelopments of more and more housing across our green and pleasant land. It is the responsibility of our Council and Planning to support this on behalf of the people. Northaw Road East is overloaded with traffic now - more housing in Cuffley in addition to Goffs Oak will only exacerbate the problems and dangers."/>
