Subject: RE: S6/2015/1342/PP Land to the north east of King George V Playing Fields, Northaw Road East, Cuffley, Hertfordshire, EN6 4RD Outline planning application for residential development of up to 121 dwellings, associated infrastructure and a change of use f

Hi Catherine,

Can you please add these comments to the application for me, I am having trouble getting access via the hyperlinks and am awaiting IT help to do this.

Thanks
Lorraine

I have had a look at the application. The accommodation schedule is, however, dated on the actual document in 2015 although it was added to the planning app in November 21 so hopefully it is still current.

Based on this accom schedule.

The requirements would be for:

99 x sets of 3 bins for each house (1 x 180l refuse, 1 x 240l recycling & 1 x food waste caddy) @ £75.00 per dwelling = £7425.00

3 x 1100l container for the 3 blocks of flats listed (block B, D & E) @ £400.00 each = £1200.00

3 x MRC (one per block)@ £597.13 each = £1791.39

3 x 240 shared food waste bins @ £25.84 each = £77.52

Total sum for the receptacles = £10493.91
