Organisation	<input type="text" value="Herts & Middlesex Wildlife Trust"/>
Name	<input type="text" value="Matthew Dodds"/>
Address	<input type="text" value="Senior Planning & Biodiversity Officer Grebe House St Michaels Street St Albans AL3 4SN"/>
Type of Comment	<input type="text" value="Object"/>
Type	<input type="text"/>
Comments	<input type="text" value="HMWT welcome the submission of a Biodiversity Metric supporting statement. However the original spreadsheet must be supplied to enable verification of habitat and condition assessments. All habitat and condition assessments pre and post development must be justified in the comments section of the metric in reference to UK Habs definitions and the metric guidance. Once this has been approved a condition for an LEMP can be formulated that links the outputs of the metric in units to the provisions in the LEMP. The management regimes in the management plan must correlate with the condition claimed for each habitat in the metric."/>
