Subject: S6/2015/1342/PP : Land to the north east of King George V Playing Fields, Northaw Road East - amendments

Dear Mark,

We recommended that the results of investigations to evaluate the archaeological potential of the site were provided with this planning application to allow us to advise you fully about this proposal.

These archaeological investigations were carried out and no significant heritage assets with archaeological interest were found. In this instance there did not appear to be any indication that the rest of the site could contain heritage assets with significance either.

Therefore we have no comments to make at this time regarding this proposal.

Regards,

Andy Instone
