Subject: Broadwater site redevelopment

I cannot attd the meeting tomorrow eve at 730 but wanted to give my full support for the much needed development of the site. My wife and I have a young baby, we cannot easily get into town with our buggy because the bridge has no lift on the east side. In addition we have to drive to hatfield to use the small baby pool which is desperately over busy. As every day users of the current facilities it is beyond our belief that this development is being challenged. i suspect those challenging it do not use the bridge or pool as often as my family if at all. I urge you to do all you can to kick start this development. I hope this note of support is of some use.

Regards

 mabey
