We are here to secure a healthy natural environment for people to enjoy, where wildlife is protected and England's traditional landscapes are safeguarded for future generations.

In an effort to reduce Natural England's carbon footprint, I will, wherever possible, avoid travelling to meetings but attend via audio, video or web conferencing

Thank you for consulting Natural England on the above application in your email received by this office on 5/10/10.

Natural England advises that if the planning authority feels that the proposals as presented have the potential to affect species protected under European or UK legislation, you are initially referred to our Standing Advice on protected species at:

http://www.naturalengland.org.uk/regions/east_of_england/ourwork/standingadvice/default.aspx
for information on species survey requirements and mitigation measures and thresholds.

We further advise that environmental impacts have been fully assessed in the Environmental Statement (including the Ecological Impact Assessment) submitted with this application. We would encourage your authority to take a positive view of the various biodiversity enhancements proposed within the ES, in line with your PPS9 duties.

Should you have any additional concerns relating to the content of this letter, please contact me at the above address.

Yours sincerely
