Subject: I support planning application N6/2010/2055/MA for Broadwater Road

Planning Ref. N6/2010/2055/MA

We would like to reiterate our support for the proposals put forward by Tesco for the regeneration of Broadwater Road.

We feel the proposed plans can only bring benefits to the town as a whole by enhancing the environment, providing jobs, business opportunities and much needed leisure facilities. It could also attract people from outside the town, creating a positive knock-on effect for existing shops and restaurants.

If the Tesco plans are not approved, is there a "Plan B"? How much longer would the site remain undeveloped and a continuing eyesore? We can't imagine that anyone would want this site to remain in its present state for years and years to come. The area around the footbridge to the station is particularly grim without even any evidence of regular cleaning at the moment.

We hope the proposals will be approved so that progress can be made as soon as possible.
