Subject: I support Tesco's plans for regenerating Broadwater Road

Dear Sir

Despite the coverage in our local press, there are folk in Welwyn Garden City who would like to see the development of Broadwater Road given positive consideration. I am one them.

While there is need to make sure that plans are careful thought through to maximise the benefits, I believe the need for new development in this appallingly derelict part of our town centre is beyond doubt.

- A car park on east side of the railway would allow us "other siders" to get easier access to all the facilities in town and thus bring business to the Howard Centre and town centre shops.
- Business which is currently going to the out of town Tesco site can be brought to the town centre.
- The new shop and swimming pool will provide more much needed jobs, and I believe will create more new jobs than will be lost in the local area.
- A new bridge over the railway track is long overdue. Locals paid for this themselves originally. Lets show our appreciation of that effort with a new safe, attractive pedestrian access.
- The vista enjoyed by visitors arriving in our proud town is one I am ashamed to show.

Please, if you have any influence, make my voice heard. We need new development .
