Comment: Great use of land WGC is desperate for Leisure facilities and this is a idea area to achieve this as it is in the centre of WGC with main routes in and around of WGC great idea to rebuilt a Civic square as at the moment the area is in a very poor state of affairs it will give WGC residents a feel of community like it use to be years ago, At the moment the footbridge cannot be used by disable, elder residents or parents with small children so they have to walk the long way and it is a very dark along this bridge at night s
