

We support Tesco's plans to regenerate Broadwater Road, and I'm asking you to support them too"

(please add your comments)

We wholeheartedly support Tesco's plans because Tesco's offers employment opportunities to ethnic minorities, young mothers with nursery and school age children, and people with physical + emotional disabilities. Tesco's will bring regeneration and business to a part of town that is neglected at present and they offer much needed facilities there. Tesco's have a social conscience and take community needs into account.
