Comment: Welwyn Garden City has adequate foodstore provision already. A Tesco already exists only a short distance away from this newly proposed store. Tesco have not provided any commitment that they will actually be undertaking the entire construction of their proposed mixed use development scheme - they are saying this will be developed by others. If they are truly committed to the community they would be developing the entire site themselves with the provision of a small Tesco Metro or similar for the new mixed use scheme. Tescos will build their superstore and not care about the rest. And how on earth will the increased traffic be dealt with - There is mention of increasing capacity on Broadwater road - they only way to do this is to widen the road - how does this affect those already living and working in the area?
