Dear Sir/Madam

I strongly OBJECT to the development of TESCO SUPER STORE in W.G.C,when we already have FOUR in the town. Let alone a TESCO within 2 MILES of our town centre.

Welwyn Garden City became a reality 90 years ago and has International reputation and fame for a healthy lifestyle. With trees,gardens,and countryside on our doorstep.

It has taken many years of careful planning to have a town with its countryside and open spaces intact.

Excessive building of yet another Supermarket in the town would be detrimental to many small businesses, let alone heavy congestion of traffic noise and pollution.

I have lived in W.G.C. since 1936 and noticed the rapid expansion and changes to the town, not always for the good.

Since the early 1960/1970s I have asked many ex- Londoners why they chose to LIVE in Welwyn Garden City, the answer is always the same. Open space, gardens, flowers and countryside, less traffic/pollution in a well planned town.

IF this plan goes ahead then Welwyn Garden City will just be a suburb of Greater LONDON.

Therefore I hope you will give this careful consideration, as the lives of many W.G.C. residents and Businesses will be blighted forever.
