Good morning Richard

Please see below for another objection to the Tesco planning application for your records. I have copied this to Mrs Amery as she requested I make sure it reaches the right person.

Regards

Tony

Subject: Objection to Tesco plans for WGC

Tony

Thanks for the Handside Matters through my door . It has spurred me to put my objection to Tesco's Planing application in writing. I hope you can pass this on.

We are about to see an enormous new Sainsburys open right in the centre of WGC. Local shops are already struggling to survive, and the economic forecasts are getting less encouraging month by month. I would like the Council to SUPPORT local businesses, small shops, family owned enterprises: local people trying to make an honest living, a decent wage, and a future for their families. They give personalised service , and contribute to a spirit of community.

The new Tesco construction if it were to go ahead would impact negatively on the town. We dont need another huge store. WGC is working towards being a Transition Town- transition to low carbon, sustainable living where quality of life is valued more than accumulation of wealth, and where we liomit the degradation of the environment. . Hopefully a more equitable society. With lower consumption and waste . I see no evidence that the Tesco development would contibute to that aspiration. The Tesco plans are not part of that future for WGC. The predicted traffic congestion wouldd have a profoundly negative impact. I wish the Council would do more to make cycling easier. There are insufficient cycle lanes and racks to secure them. Investment in sustainable transport is what is needed.

Your sincerelty
