Subject: Tesco

We object to Tesco's proposed plans to develop the Broadwater site on the following grounds:

- The town plan does not allow for major retail development on that side of the railway bridge.
- The existing shops such as John Lewis, M&S etc will be badly affected, possibly resulting in closure, loss of jobs and the end of the town centre.
- Litter created by such a large store will blight the area (one has only to look at Oldings Corner to see the dreadful litter problem)
- Increased traffic on already congested roads..especially if there is a depot on the site.
- Promises ,promises,promises...which Tesco never keep!!
- The area does not need a swimming pool as there are already 4 in Hatfield...a short distance away.
- Hatfield residents have to travel to WGC for John Lewis, Campus West and the hospital so surely W.garden residents can make the short journey to Hatfield for the pools.
- Tesco will not be paying for the upkeep which will fall to the tax payers.
- Tesco are determined to prove a point as they missed out on a site in the main shopping area.
- We do NOT need another supermarket in town...tesco at Oldings is easily accessible.
- Tesco can afford to hire their own highly experienced lawyers who will bludgeon the planners into approving the plans...they always get their own way..this is NOT democracy.
- It would be nice to introduce back into town a butchers and fishmongers.

Regards
Rowena and Paul Ward
