Comment: I am having problems understanding why people are rejecting the proposal to rebuild part of broadwater road, I feel that this town could do with much injection of new facility such as the proposal from Tesco's to rebuild this proposal will have a long time financial income into this community, with a new shopping precinct and affordable housing developments.

Tesco's is stepping up to local demands for this town to change and grow, as i'm sure that many people do their shopping in neighbouring towns i.e. Hatfield, stevenage.

So I'm aware that the new facilities will include a swimming pool, bars, restaurants, gymnasium, just what this town needs.
