Comment: This will improve the town because it will regenerate that side of the railway bridge, provide good local jobs for people living nearby, remove the need for many to drive to Tesco or Asda in Hatfield and give a much needed swimming pool.

I can see no good reason to object. There is no other realistic way in which that land would be developed for a number of years and in the current economic climate we would not get a swimming pool for even longer. I also recall reading that Argos are also closing their depot over there which would create even more unused industrial space.

There has been a lot of noise and a well-orchestrated campaign by The Welwyn Garden City Society through the local paper but I don't think this fairly reflects the balance of opinion in the town. The Welwyn Garden City Society certainly does NOT represent me or my views.
