Thanks David,

I appreciate your comments and will forward them to the planning department for inclusion in the consultation comments. Thank you for taking the time to write to us.  
Regards

Louise Lotz  
Councillor, Peartree Ward

I know that you value of the uniqueness of the garden city idea which is famous world wide and influential in architects city designs History will judge us badly if we put it at risk.

I think the latest Tesco proposal does that and that it is unacceptable even at a time when I know the council badly needs money. The size of the proposed store will severely impact on existing neighbourhood shops-woodhall, peartree Haldens-prospect of closed boarded up shops or more charity shops?-what tesco proposes is an "out of town shopping precinct" in the middle of the town which will put enormous pressures on roads, services, be in competition with existing shops and further emphasise the east west divide.

Please think again
