For the attention of Mrs. S. Smith

16 Brockswood Lane, Welwyn Garden City
(W6/2013/1077/EM & N6/2013/1078/FP)

With reference to my recent applications regarding a proposed extension to the above property, I been contacted by David Peever of 14 Brockswood Lane, who has suggested that the new vehicular access and parking should be 'handed' to avoid the existing Malus tree in the highway verge. He also asked that no hedges be planted around the garden. Although my clients would like some low planting around the parking area they have no wish to provide hedges, so they are happy to comply with Mr. Peever's suggestions.

I have attached a revised site plan showing the revised parking layout, and I would be pleased if you would substitute this drawing for that originally submitted.

Thank you for your assistance in this matter.

Regards,

Martin Bridge
