Subject: Proposed Council Office Extension

Sir
As Council Tax paying residents of Welwyn Garden City, we wish to register our objections to the Council's proposals for the council office extension, endorsing the issues set out in the October Special Edition Newsletter of the Welwyn Garden City Society, which you must have seen. We believe the Council is riding roughshod over the processes of obtaining public consensus for their proposals, are attempting to bulldoze through those proposals, and are being completely inconsistent in applying the planning standards enforced on all other properties in the town, which aim to preserve the nature of the area.

On a further point not raised by the Society, we wonder whether the designers of the glass-fronted entrance, which is angled, have researched whether the dangers of reflected sunlight on vehicles and other surfaces - a recent problem in London - might occur?
