Comment: As this proposal is in a Conservation Area, the materials of the entrance facade are inappropriate. They do not, in any way, fit in with the existing building.

The external view could be in almost any 'new build' location and have nothing of the character of the essence of WGC.

It would seem that the design of the frontage may inhibit the usable interior space. In any event, does this take account of at least 10 to 20 years of forward planning?

For a project of this importance, the consultation period seems ridiculously short. All Councillors should be fully appraised of these plans; and public meetings held to allow comment, explanation and discussion. In short, this is not a proposal to be rushed through; and my objection covers this unseemly haste.
