**OBJECTION**

I am contacting you in reference to the extension to the town hall as set out in the plans ref N6/2013/1938/MA on the grounds it does not blend in with the existing building that is within the conservation area. Welwyn Garden City was set out with strong principles foresight and good planning. The approach to this current task seem slap dash and no clear thought behind the project, the exterior is far from sympathetic to the area, let alone the fact that the **council seem to be able to make a proposal knowing that it is in breach of its own policy!**

This cannot be allowed at any cost, would it not be best suited to employ a local company with knowledge of the area and someone whom has lived and resided in or around the town that can bring around a change sympathetically to the need that we have to move forward but able to blend in new and old with the way Ebenezer Howard way.
