**Subject:** Council Office Extension reference N6/2013/1938/MA

I am very disturbed to read that the Council appears to want to progress the extension without full public consultation and against their own planning regulations.

We are constantly reminded that we live in a conservation area but the proposed extension does not appear to be in keeping with the visual guidelines. I have also read that if completed as planned the new working area would be lacking with regards to natural lighting and would not provide room for future expansion.

Surely an extension of this nature and with the cost involved, should be subject to full and lengthy public consultation.

regards
