6th October 2013

Dear Sir

Council Office Extension ref N6/2013/1938/MA

I am most concerned about the proposed council office extension, and I strongly object to this inappropriate development in a prestigious, conservation area.

The exterior of the proposed offices do not respect the scale, design and materials of the original buildings. It simply does not fit in. The centre of WGC is famous for its design and any building in this area must be appropriate for this location.

I am also very upset by the way the Council has processed its own planning application, and has failed to properly consult on the design. In this day and age it is to be expected that a public body is open and honest in all of its dealings, and this is certainly not the case with this proposed office development.

Yours faithfully

Janet Warrington
