Subject: Council Office Extension reference N6/2013/1938/MA

Dear Sirs

We write to object in the strongest possible terms to the proposed council office extension project. We support totally the views expressed by the Welwyn Garden City Society. The slaphappy manner in which all the necessary procedures have been conducted is a total betrayal of the council tax payers of Welwyn Garden City. Even to consider continuing with a structure that will not be fit for service on completion is a total nonsense. Please stop NOW, and reconsider.
