I object to this proposal on the following grounds

The Council's own planning department normally requires any extension to **respect the materials and setting and to be subservient to the existing building**. Particularly in the Conservation area. The proposal significantly fails to do this.

Residents and businesses in the conservation area are expected to go to great lengths to obtain acceptable bricks and in general manage to do so. What sort of example is being set by such a blatant deviation. If this goes ahead one can expect little respect for present planning rules all over the borough.
