6. 10. 2013

Dear Tony

I cannot let this latest blatant disregard for local people go unremarked.
Ref. N6/2013/1938/MA.

1. The exterior of the proposed offices do not respect the scale, design & materials of the original buildings facing the Campus
2. The Council's processing of its own planning application without any consultation is incredible. In this day & age it is to be expected that a public body is open & honest. This is certainly not the case with this proposed office development.

Yours sincerely
