3.10.13.

Dear Mr Beckman,

I recently received details of the proposed Council Office extension.

I was surprised and appalled upon seeing the views of the extension exterior. It will stick out like a sore thumb. Surely it is not in keeping with building rules especially in Conservation Area.

Do you not agree that the Council should be setting an example and leading the way when it comes to maintaining the Welwyn Garden City ethos and traditions?

How is it that this proposal was not nipped in the bud, as it so obviously does not meet the rules?

I do hope that it is not too late for the project to be reviewed.

Yours sincerely

  
(MR J.M. SMITH).

P.S. It looks to me as if Council needs to review it's procedures when considering it's own proposals.
