Dear Greta Plowman

Thank you for your email concerning the proposed extension to the council offices. I am pleased to say that even though the official date has passed I have forwarded a copy of your message to the Planning Department as they are happy to receive comments prior to any committee meeting to decide the application.

As you will be aware I am a member of the Development Management Committee that will meet in due course to determine the planning application.

As a result of my membership of the committee I am not in a position to offer any opinion until such time as the committee meets, I trust you will appreciate the reasons for my unwillingness to comment at this stage.

Please feel free to make further representations if you find it necessary to do so.

Dear Tony Skottowe

I am writing to you in your role as Councillor for Handside, where I have had the pleasure of living for nearly sixty years. You are observed to be an active and concerned representative, and to be well versed in knowing what things a Council may or may not do.

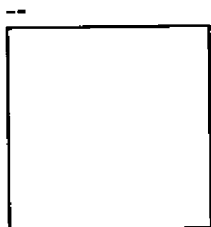

One aspect that struck me forcibly when I first arrived here was the Town's responsibility to respect and maintain matters such as materials, proportion and scale for new buildings. The proposed Extension is a violent intruder. I have also read that the internal lay-out is as ill-conceived as the exterior. All within a CONSERVATION AREA! Well enough guarded, when any of its humbler dwellers put a foot wrong. . . Geese and ganders spring to mind.

I note that a brief period of ill-health has caused me to to pass the desirable date for a letter such as this. That does not make it any less of a cry for our town's heritage. And I wish to put my word of urgency behind all

that you can do to obtain a re-assessment of this ill- conceived project.

Yours sincerely

Greta Plowman
