Comment: I object most strongly to the Council's plans and actions with regard to this proposed development. The facade is totally out of character with the town and is a senseless pandering to 21st Century architectural fads for NO good reason. It would appear NOT to meet the needs of staff anyway. Why is the Council unwilling to undergo proper consultation and discussion and present options which more closely fit with the conservation area? Why is there no sympathetic treatment using available materials which would fit with the existing structure. What would be the planning departments views if I proposed such an extension to my house in the conservation area? They do not want even a pitched tiled roof on an extension - how bizarre is that? How about some open responsive government! We should be building for the sympathetic future preservation of a unique town; of course additional facilities are needed but there are other ways of providing additional floorspace without having glass curtain walling.
