**Subject:** Council Office Extension ref N6/2013/1938/MA

I request that the proposed plans for this extension should go to a full public consultation and that the Council now provide the public with all information and supporting documentation leading up to their designs for this proposed building by full disclosure (other than commercial information).

I also request that the Council fully involve the Welwyn Garden City Society in the future development of these plans so that the rules in the conservation area are upheld.
