Comment Type: Object

Comment: I wish to object to the revised application for the extension to the Council offices. Whilst the brick infills are an improvement, why on earth could not the entire front of the extension be also in matching windows and brickwork? In my view a replication of the existing front entrance design could have been used again on the rear of the Council offices. This would have been a more acceptable design. I am amazed that the Architects used by the Council have come up with such a dreadful design in a Conservation Area within a world famous & renowned town such as Welwyn Garden City. I therefore urge our elected representatives to refuse this application.
