Dear Mr. Samuaden,

I find it very difficult to understand how the council has agreed to the kind of extension now proposed to the Council Offices. It is not in keeping with Wahyuan Garden City architecture and indeed seems quite ugly. Furthermore I understand there has been no proper public consultation. I know of no one who is happy with the proposed extension and indeed wonder who was responsible for accepting it, including the very limited changes that have been made.

Please - I do hope the Council will listen to its residents.

Yours sincerely,
