Dear Sirs,

Objection to Council Office Extension (Re: N6/2013/1938/MA) Amended Plans

I am writing to object to the amended plans for the Council Office Extension

Despite the welcome amendments to the original plans, I believe the amended plans remain entirely out of harmony with the surrounding buildings. The amended plans are an aesthetically shrill and strident adjunct to a key building in a conservation area.

My objections to the original plans on the grounds of environmental sustainability remain unaddressed.

It is arguable that the original plans were so grossly and fundamentally flawed that any number of piecemeal alterations can, at best, merely remedy isolated shortcomings.

I would respectfully urge that the amended plans be rejected by the Planning Control Committee and a fresh start, and a proper consultation conducted by the Applicant, in order to arrive at a more suitable plan for this prominent site.

Yours sincerely,

A solid black rectangular redaction box covering the signature area.
