Comment: Since moving to WGC 15 years ago, I have been delighted at how the original Ebenezer Howard vision of the City has been maintained and the pride that the town has of being a unique icon to modern history. So I do not understand how the current council can be advocating this style of extension which would quickly be thrown out if something similar was proposed by a householder. I am afraid that the reputation of a hardworking council will take a big knock if this out of character extension is approved.
