To: Planning; Helen Bromley; Michel Saminaden
Subject: proposed amended council office extension

Ref: N6/2013/1938/MA

Following my earlier objection to the original plans for this extension, I am now writing to confirm my objections to the proposed AMENDED plans for the extension to the council offices and I strongly request that the proposals be reviewed for the following reasons:

1. The project appears to be being rushed through.
- 2. It breaks the Council's own policies in the conservation area**
3. The Council has 'validated' its own application improperly by breaking the rules.
4. It appears that those driving the project have not gone to consultation, despite being 'mandated' to do so
5. The new amended plans continue to demonstrate that the design is completely out of keeping with the rest of the building in one of the most important areas of the town in terms of its traditional design and architecture.

I strongly request that these plans are radically changed for the sake of our town as soon as possible..
