MR C.J. CONWAY,
CHIEF PLANNING AND
ENVIRONMENTAL HEALTH OFFICER,
WELWYN HATFIELD COUNCIL

19. 11. 2013

Dear Mr Conway,

RE: N6/2013/1938/MA AMENDED PROPOSED ALTERATIONS TO CAMPUS EAST

Having been informed by WHC staff that the plans have not been amended, the principal features of the design, namely the Council Chamber and the proposed arch do still not align.

The fact that the elevations of the existing wings are not symmetrical should not impose symmetry on the new elevation.

The amended architectural treatment using brick either side of the arch suggests that the whole of the new elevation should be treated with this material and the proposed arch be abandoned.

I therefore object to the amended proposal.

Yours sincerely,

[Redacted signature]
