Comments	13/09/2018 - Lorraine Davis Our recommendation would be to have 4 x 360l shared refuse containers and 5 x 360l Blue lidded recycling bins. These will be incorporated on the existing ARRC scheme. We would require there to be a flat level tarmac path from the bin store to the freighter. Please show plan with bin store with sufficient capacity to store these bins. Also There is a Garden Waste service which is an opt-in chargeable service at ?35.00 per annum and may be of interest to those residents with private gardens, please take into consideration that these residents will need somewhere to store their bin on their property and a clear path to present it for collection at the front boundary of the property on collection days.
