Subject: Planning Application 6/2018/1996/FULL - 77 Brookmans Avenue, Brookmans Park

I am writing to object to the proposed redevelopment of 77 Brookmans Avenue into a block of flats on these grounds:

- 1) If approved, the proposal will lead to a fundamental change in character of the road which is still mainly single residential homes in a village environment.
- 2) It will set a negative precedent for similar developments which will erode the established character of the road and the village.

Regards
